

Prosafes Offshore

February 19, 2016

Reference: dpi Pte Ltd
Project: *Safe Caledonia* refurbishment, *Safe Scandinavia* SPS and Upgrade,
Safe Scandinavia TSV

Dear Roger/ Peter,

I would wish to thank you and the personnel you provided to us through dpi Pte Ltd for your performance during the Projects undertaken with Prosafes. These included the refurbishment of the *Safe Caledonia* semi-submersible flotel in 2012/2013, the Special Periodic Survey (SPS), crane and anchor winch upgrade of *Safe Scandinavia* in 2013/2014 and the conversion of the *Safe Scandinavia* to a Tender Support Vessel (TSV) in 2014/2015.

Throughout these demanding projects and worksopes, your personnel have been extremely competent, professional, and adaptable.

The high standard of your personnel was of great benefit to all within the Project Teams and contributed to the finished product of the *Safe Caledonia* and the *Safe Scandinavia* with which myself and Prosafes are very pleased.

We are more than happy to have worked together with you on the *Safe Caledonia* and *Safe Scandinavia* projects and would be pleased to work with you again in the future.

Yours Sincerely,

Michael Duddy
